

Good evening Seaman Families,

This past week was a busy one. Our kindergarteners met author Tim Miller at the Jericho Public Library and learned how stories are created, beginning with the author's process for generating ideas. Our third graders worked with author Brian Heinz developing their individual writing processes here in the Seaman library. In addition, we thank you for joining us at our Curriculum Fair on Thursday evening. Our entire school community works hard to emphasize kindness in everything we do. It is a large part of the essence of our school.

Our latest schoolwide video was introduced at the Board of Education Meeting, following the Curriculum Fair, on Thursday evening. It is now on the homepage of our website for you to view.

Lastly, our fifth graders had a fantastic time at Sports Night Friday evening. It truly is a special evening.

Wishing you and those you love a healthy and happy Thanksgiving. See our Tweets from this past week by clicking the link below.
