

Good afternoon Seaman Families,

We've had a wonderful first week. Your children are adjusting beautifully to their new teachers, classrooms, and classmates. We have begun a new community building program in each classroom called Responsive Classroom. The children have been starting their day with a morning meeting, which includes a special greeting, an opportunity to share something, an activity, and a morning message. This will look different in each classroom. Many of the prompts that the students will use during their morning meeting will be academic, but often times it will be something personal (a favorite sport, best summer moment, etc.) so they can get to really know each other. Please ask your children about their morning meetings. We welcome Mrs. Pryhocki, our new FLES (world languages) teacher, who comes to us from Jericho High School. Mrs. Pryhocki is replacing Mrs. Osroff, who retired in June.

Next Thursday evening is Meet the Teacher Night. Parents of students in kindergarten through grade 2 will meet in their child's classroom from 6:30-7:00pm, and grades 3 – 5 will meet from 7:30-8:00pm. All special area (out-of-classroom) teachers will be available from 7:00-7:30pm. Parking will be difficult so please be mindful of that. If you can walk to Seaman, it is recommended. We look forward to welcoming you.

Have a great weekend,

Ivy
